REASONS for ALLOWANCE

The following is an examiner's statement of reasons for allowance:

A close prior art, Hosomi et al. (U.S. Patent No. 6,049,130), discloses most of the limitations of the claims, but fails to show at least pressure bonding a bonding mass onto the upper surface of the under-ball-metallurgy layer then removing a portion of the under-ball-metallurgy layer so that only a residual under-ball-metallurgy layer remains underneath the bonding mass.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure: Berndlmaier et al. (illustrates a metal bump similar to the one claimed), Yu et al. (illustrates a ball on a deposited layer), Andricacos et al. and Chiu et al. (illustrate ball-limiting metallurgy).
